Highlights from the September Meeting

Thirty members and guests were present.

Dave Haywood and Bob Howell were absent.
Matt Merciez Presided.

The Air Show Team will support the City of Suffolk Outdoor Expo on September 23rd. The event runs from 10:00 a.m. to 6:00 p.m. at Constant's Wharf and Marina near downtown Suffolk. Bob Howell will have details regarding location, setup, parking etc. Participants should wear club T-shirts, or AST shirts if you have them. Constant's Wharf is at the intersection of East Constance Rd. (Route 58/460) (note spelling difference) and N. Main Street in Suffolk.

The Pylon Race originally planned for the 23rd may or may not be rescheduled.

New AST shirts are available from Bob Swain. He is also taking orders for club T-shirts which are a good deal since the vendor has not raised the price in a few years.

The AST shirts and hats are in. PRINT & STICH has not raised her price on the shirt so it's still \$30.00. The hat, however, is now \$9.00. I have a shirt for every one who placed an order and a few extra in various sizes. Please contact Bob Swain about ordering. He is also taking orders for club T-shirts.

October 21st is both "Driver Days" and the City of Suffolk Parks & Rec. Open House Air Show. Bob Swain proposed that the AST participate in both. The Driver Days event will be a static display with the possibility of an electric-demo (for 2 days), and the Park Service event will be a flying event. There appeared to be a sufficient number of club members interested to make it feasible to participate in both.

Highlights from the September Meeting (continued)

Three New Pilots were qualified in the last month. Congratulations to:

Mike and Michael Regione
Will Styron

For the Safety Discussion Henry Cahoon related an incident that occurred at a local field where an unconventional plane struck a child between the pilot boxes and pit area.

Show and Tell was:

- Henry Cahoon's Great Planes Matt Chapman Cap 580 powered by YS .63,
- Jim Maguire's Kyosho Pitts powered by Saito .72.
- Keith's Harrell's SPAD trainer that has some dihedral and is less expensive than some trainers that have bitten the dust recently.
- Jimmy Tomlin's Goldberg HotStick.

Henry Cahoon gave a soldering demonstration.

Next month's talk on will be on pull-pull rudder setups by Keith Harrell.
